

## **KENNEDY BAY Course Tips**

- Hole 1** Aim left off the tee to avoid rolling into the fairway traps.
- Hole 2** Ease a shot down in front of the traps for a short shot in. Keep second shot away from left green side bunkers.
- Hole 3** Keep tee shot to the right to avoid deep left bunker.
- Hole 4** Danger at 210m off tee. Keep second shot to the left or you will be in trouble.
- Hole 5** Tee shot is the key. Bunkers at 183m, 210m, 233m and 255m. Large green, keep second long and left.
- Hole 6** Best to be long, and avoid the bunkers at the front
- Hole 7** Shallow green, best to leave a full wedge shot to stop it at the top.
- Hole 8** Keep right off the tee, cautious lay up over bunkers to leave 90m to green.
- Hole 9** Need to be in the middle of the fairway off the tee, to get a good shot at the green. Par here is good golfing.
- Hole 10** Aim to the right side of the fairway and you should carry the bunkers.
- Hole 11** Try to get on the left side of the split to get a good look at the green.
- Hole 12** Avoid the temptation of the green and try to get up on the right mound of the fairway.
- Hole 13** Narrow fairway. You must be straight to avoid trouble. Aim left off the tee.
- Hole 14** Make sure you have enough clubs. Watch the wind.
- Hole 15** Aim to the right side of the fairway and catch the ridge.
- Hole 16** Only a short hole of 120m. Don't go right or left. Long isn't good either.
- Hole 17** A true 3 shot hole. Play safely and avoid fairway bunkers.
- Hole 18** Tight approach to the green. It is best to have a bit extra club.

The Golf Club Kennedy Bay is a thinking golfer's paradise. Players need to plot their way around the links in a reserved and cautious manner. Any untamed bravado will be dealt with in the severest manner. Happy Golfing!
